TO THE PUBLIC.-It affords me much pleasnre to state that in July, 1871, Front Street Theatre was painted inside and out with Bradley's Patent Enamel Paint, for which C. P. Knight, No. 93 West Lombard street, is agent, and to testify to its superiority over any and all other paints for similar uses. In no private advantages not to be had elsewhere. dwelling can paint possibly be subjected to the very severe test it undergoes at this establi hment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when first put on. Of the numerous advantages it possesses over other paints I will mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the execution o work where paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. Assuch I most earnestly recommend it to the

merchants and tradesmen of our city, believing that it will give them greater satisfaction than they can possibly anticipate.
